This guide is to help MSUB Faculty use the Scopus database to find potential journals for publishing their manuscript.

**Go to the Scopus database and enter keywords that best describe your manuscript’s topic.**

Scroll down and look under “Refine my Results” for the Source Title on the lower left-hand side of the page. Click the down arrow to view journal titles.
Notice the journal names and the number of articles it has on your topic. Click “view more” to expand this list.

Click on the journal title to view metrics on that specific title.
Click the “source” tab to compare the top 10 sources in graphical form:

Click on the journal title to view metrics on that specific title.
